

# High Temperature Series

## Nickel-Metal Hydride

### VHT Cs

The Ni-MH VHT range has been specially designed to fit the emergency lighting and high temperature power back-up requirements. This range complements the Ni-Cd VT range.

The VHT Cs is designed to accept a permanent charge in high temperature environments such as security lighting equipment. The VHT Cs offers capacity of IEC 2.0 Ah.

To meet customers' requirements, Saft provides custom-designed and standardized battery packs.
